ROBINSON FABIÁN SALAMANCA PALACIO

Bogotá, Colombia | +57 310 884 0126 | psfr97@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Full Stack Java Developer with a strong background in Systems Engineering, technical support, and network infrastructure. Hands-on experience developing and integrating web applications using Java, Spring Boot, JavaScript, and relational databases. Proficient in implementing MVC architecture, designing and integrating RESTful APIs, enabling data persistence with Spring Data JPA, and automating background tasks. Skilled in collaborative version control (Git/GitHub), accessible web development, and responsive user interfaces.

EDUCATION

UNAD, Bogotá, Colombia *July 2025 – Present*
B.S. in Systems Engineering (In Progress)

Generation Colombia, Bogotá, Colombia *February 2026 – June 2026*
Intensive Bootcamp: Full Stack Java Developer

SENA, Bogotá, Colombia *2018 – 2020*
Associate Degree in Data Network Management (Tecnólogo en Gestión de Redes de Datos)

SENA, Bogotá, Colombia *2017 – 2018*
Technical Degree in Systems Technology (Técnico en Sistemas)

PROFESSIONAL EXPERIENCE

Freelance — IT Support & Digital Solutions | *Bogotá, Colombia| August 2020 – June 2026*

- Designed and implemented custom digital solutions for diverse clients, reducing technical incident resolution times by 30%.
- Diagnosed and repaired computer hardware and software issues, adapting tools and workflows to client-specific environments.
- Applied technical analysis and continuous process improvement to deliver results-driven, high-quality technical service.

Caracol Radio — Network Technician Intern | *Bogotá, Colombia| February 2020–August 2020*

- Managed corporate IT infrastructure, reducing network outage response times by 25%.
- Conducted system monitoring and diagnostics in high-availability environments to ensure operational stability.

PROJECTS

Quick Notes (Notas Rápidas) — Web Application & REST API | *Personal Project (Full Stack)*

- Developed an interactive web application for managing temporary notes and time capsules using Java, Spring Boot, and Vanilla JavaScript.
- Built a complete CRUD RESTful API with data persistence via Spring Data JPA and unique identifier handling using UUIDs.
- Implemented automatic background data purging using scheduled tasks (@Scheduled) and service-level transactional management (@Transactional).
- Wrote custom JPQL queries to filter active records on the server side, optimizing payload delivery to the client. Integrated dynamic modals and responsive UI consuming asynchronous endpoints via Fetch API, managing CORS policies and DOM events.

TerraViva — Booking Management Platform | *Collaborative Project*

- Developed a responsive web platform utilizing MVC architecture and REST APIs for full CRUD operations.
- Implemented backend business logic with Java and Spring Boot, integrating relational databases (MySQL/PostgreSQL).
- Collaborated in a team environment using Git and GitHub for version control, bridging backend business logic with accessible user interfaces.

Personal Portfolio *GitHub Pages*

- Built a bilingual website (Spanish/English) featuring dark mode, responsive layout, and web accessibility best practices using HTML5, CSS3, and custom Bootstrap.

SKILLS & COMPETENCIES

- **Languages & Frameworks:** Java, Spring Boot, Spring Data JPA, Hibernate, JavaScript (ES6+), HTML5, CSS3, Bootstrap.
- **Databases & APIs:** PostgreSQL, MySQL, SQL, JPQL, RESTful APIs, JSON, CORS. Tools & Practices: Git, GitHub, Scheduled Tasks (@Scheduled), Transaction Management (@Transactional), Postman, Fetch API (Async), MVC Architecture, OOP, CRUD, UUID, Responsive Design.

- **Infrastructure & Networks:** Linux, Windows, LAN/WAN Networks, Technical Support.
- **Soft Skills:** Problem-solving, teamwork, continuous learning, effective communication, proactivity.
- **Languages:** Spanish (Native), English (B1 - Intermediate).
